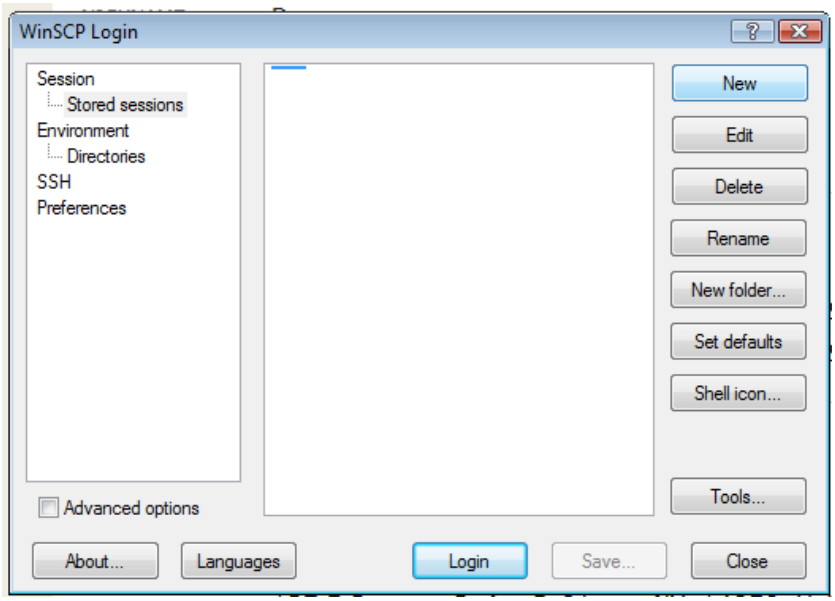
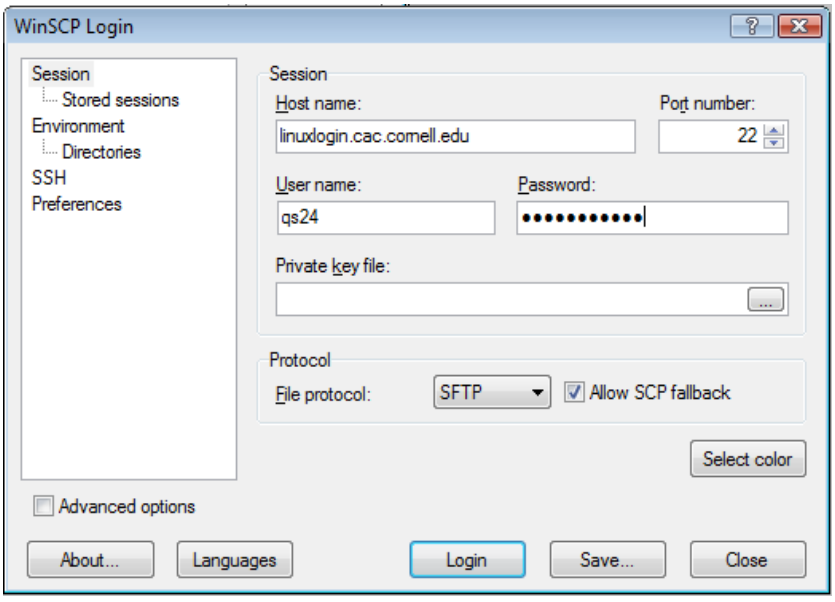
Using WinSCP

1. Download from WinSCP and install the software.

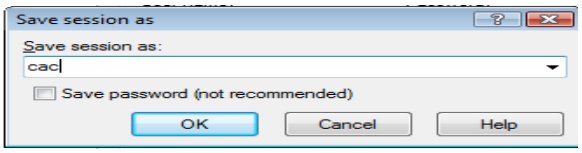
2. First using WinSCP, click "New" to create a connection.



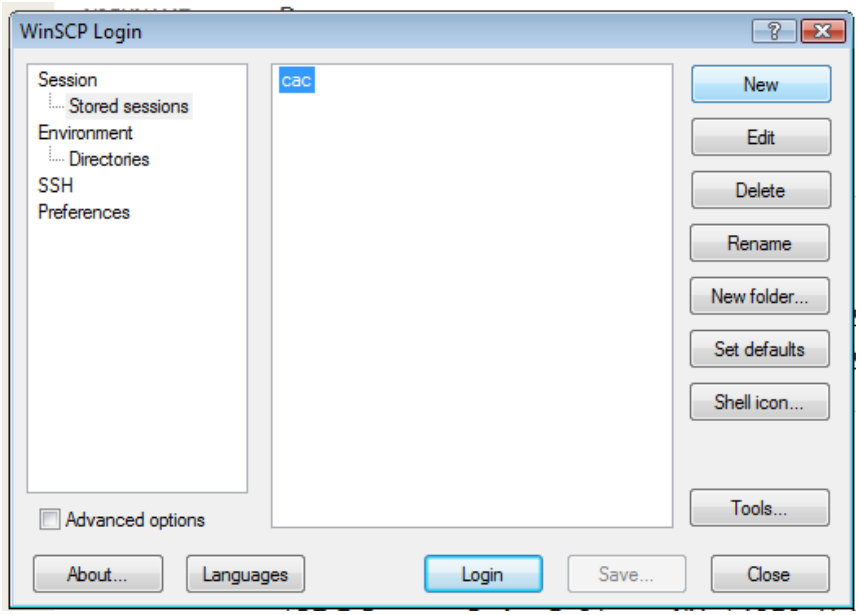
3. Enter the hostname "linuxlogin.cac.cornell.edu", "User Name" and Password. Click "Save"



4. Save the session as "CAC", click "OK"



5. Double click "CAC" to connect to the remote server.



6. The left panel shows your local computer. The right panel shows your home directory on the remote server. You can move files between them by drag the files or directories.
